Civil Engineering Database Subject Heading Index

The **Civil Engineering Database (CEDB)** is designed to provide free, easy bibliographic access to all ASCE publications. The database covers ASCE documents published since 1970. It provides access to all the journals, conference proceedings, books, standards, manuals, magazines, and newspapers. The index terms below were assigned to papers published in this journal during 2005 from a CEDB subject heading list. The CEDB and subject heading list can be accessed on the Web at *http://www.pubs.asce.org/cedbsrch.html*.

Accuracy
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).

Allowable stress design
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).

Assessment
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Beams
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).
Interaction-Based Design Formulas for Transfer Beams: Box Foundation Analogy. — J. S. Kuang and Shubin Li; 10(2), 127-32 (2005).

Best Practices
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Bricks
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Bridge abutments
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Bridge decks
Partial Continuity in Bridge Girders with Jointless Decks. — Ayman M. Okeil and Adel ElSafty; 10(4), 229-38 (2005).

Bridge design
Analysis of Horizontally Curved Bridges Using Simple Finite-Element Models. — Eduardo DeSantiago, Jamshid Mohammadi, and Hamadallah M. O. Albaijat; 10(1), 18-21 (2005).

Bridges
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).

Bridges, composite
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Bridges, continuous
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Bridges, girder
Discussion on AASHTO LRFD Load Distribution Factors for Slab-on-Girder Bridges. — C. S. Cai; 10(3), 171-6 (2005).
Partial Continuity in Bridge Girders with Jointless Decks. — Ayman M. Okeil and Adel ElSafty; 10(4), 229-38 (2005).

Building design
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).

Buildings, high-rise
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).
Interaction-Based Design Formulas for Transfer Beams: Box Foundation Analogy. — J. S. Kuang and Shubin Li; 10(2), 127-32 (2005).

Buildings, multistory
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).

Buildings, residential
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Canada
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Case reports
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Claims
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).

Codes
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).

Comparative studies
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).

Compression
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Computation
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).

Computer aided design
Electronically Enhanced Traditional Structural Steel Beam Design Using Electronic Design Charts. — Souhail Elhouar; 10(4), 222-8 (2005).

Computer programming
Electronically Enhanced Traditional Structural Steel Beam Design Using Electronic Design Charts. — Souhail Elhouar; 10(4), 222-8 (2005).

Concentrated loads
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Concrete
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Concrete beams
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Concrete columns
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Concrete construction
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Concrete slabs
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Concrete, prestressed
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).

Concrete, reinforced
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).

Connectors, mechanical
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).

Constraints
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).

Construction
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Construction inspection
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daña J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).

Construction management
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Continuous structures
Partial Continuity in Bridge Girders with Jointless Decks. — Ayman M. Okeil and Adel ElSafty; 10(4), 229-38 (2005).

Cracking
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).

Cranes
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Creep
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Curved beams
Analysis of Horizontally Curved Bridges Using Simple Finite-Element Models. — Eduardo De-Santiago, Jamshid Mohammadi, and Hamadallah M. O. Albaijat; 10(1), 18-21 (2005).

Cyclic loads
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daña J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).

Data analysis
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (2005).

Debris
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Decision support systems
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).

Delay time
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).

Design
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (2005).

Drainage
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Drilling
Postconstruction Evaluation of Horizontal Directional Drilling Installations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).

Earth structures
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).

Earthquake resistant structures
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).

Elastic deformation
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).

Electric power outages
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Environmental issues
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Erosion
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Evacuation
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Failure surface
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Failures
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Finite element method
Analysis of Horizontally Curved Bridges Using Simple Finite-Element Models. — Eduardo De-Santiago, Jamshid Mohammadi, and Hamadallah M. O. Albaijat; 10(1), 18-21 (2005).
Discussion on AASHTO LRFD Load Distribution Factors for Slab-on-Girder Bridges. — C. S. Cai; 10(3), 171-6 (2005).
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).

Finite elements
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).

Finite-element method
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Finland
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Flanges
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).

Flexibility
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).

Fracture strength
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (2005).

Geometry
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).

Highway construction
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).

Historic sites
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).

Housing
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).

Humidity
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).

Hurricanes
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Hydraulic models
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Hydraulic structures
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Hydroelectric powerplants
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

In situ tests
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Injuries
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Insurance
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Israel
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Joints
Partial Continuity in Bridge Girders with Jointless Decks. — Ayman M. Okeil and Adel ElSafty; 10(4), 229-38 (2005).

Liability
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Lifting
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Load and resistance factor design
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).
Discussion on AASHTO LRFD Load Distribution Factors for Slab-on-Girder Bridges. — C. S. Cai; 10(3), 171-6 (2005).
Electronically Enhanced Traditional Structural Steel Beam Design Using Electronic Design Charts. — Souhail Elhouar; 10(4), 222-8 (2005).

Load distribution
Discussion on AASHTO LRFD Load Distribution Factors for Slab-on-Girder Bridges. — C. S. Cai; 10(3), 171-6 (2005).

Load tests
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Maintenance
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Masonry
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Microtunneling
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).

Models
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).

Moisture
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Nonlinear analysis
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Occupational safety
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Optimization
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).

Parking facilities
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Performance evaluation
Postconstruction Evaluation of Horizontal Directional Drilling Installations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).

Peru
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Pile lateral loads
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Pipelines
Postconstruction Evaluation of Horizontal Directional Drilling Installations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).

Post tensioning
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).

Powerplants
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Rehabilitation
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).

Reinforcement
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Restoration
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).

Retrofitting
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Rivers
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Rocks
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Safety
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).

Seismic isolation
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).
Serviceability
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).
Shallow foundations
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).
Shear lag
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (2005).
Shear walls
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daňa J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).
Interaction-Based Design Formulas for Transfer Beams: Box Foundation Analogy. — J. S. Kuang and Shubin Li; 10(2), 127-32 (2005).
Shrinkage
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).
Slabs
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).
Discussion on AASHTO LRFD Load Distribution Factors for Slab-on-Girder Bridges. — C. S. Cai; 10(3), 171-6 (2005).
Soft soils
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).
Soil pressure
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).
Soil-structure interaction
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).
Spread foundations
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).
Spreadsheet
Electronically Enhanced Traditional Structural Steel Beam Design Using Electronic Design Charts. — Souhail Elhouar; 10(4), 222-8 (2005).
Stadiums
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).
Steel beams
Electronically Enhanced Traditional Structural Steel Beam Design Using Electronic Design Charts. — Souhail Elhouar; 10(4), 222-8 (2005).
Steel construction
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).
Steel structures
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (2005).
Stiffness
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daňa J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).
Stress
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).
Structural behavior
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).
Structural design
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).
Structural response
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).
Structural safety
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).
Superstructures
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).
Temperature effects
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).
Tendons
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).
Tensile members
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (2005).
Timber construction
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daňa J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).
Time dependence
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).
Torsion
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).
Traffic speed
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).
Trenchless technology
Postconstruction Evaluation of Horizontal Directional Drilling Installations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).
Tunnel linings
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).
Underground construction
Postconstruction Evaluation of Horizontal Directional Drilling Installations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).
Walls
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).
Water discharge
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).
Wooden structures
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daňa J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).
Workspace
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).

Author Index

Adeli, Hojjat
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).

Albaijat, Hamadallah M. O.
Analysis of Horizontally Curved Bridges Using Simple Finite-Element Models. — Eduardo DeSantiago, Jamshid Mohammadi, and Hamadallah M. O. Albaijat; 10(1), 18-21 (2005).

Albhaisi, S.
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).

Alfawakhiri, Farid
Selecting the "Right" Fire Resistant Design. — Farid Alfawakhiri and Charles J. Carter; 10(1), 3-7 (2005).

Ariaratnam, Samuel T.
Postconstruction Evaluation of Horizontal Directional Drilling Installations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).

Arockiasamy, M.
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Asteris, P. G.
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Barber, Stacey
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (T) (2005).

Beljan, Ivan J.
Postconstruction Evaluation of Horizontal Directional Drilling Instailations. — Samuel T. Ariaratnam and Ivan J. Beljan; 10(2), 115-26 (2005).

Borg, Robert F.
Discussion of "Competitive Bid versus Negotiated Bid in Commercial Construction Industry—One Contractor's Perspective" by Steve Zelasko and Cliff J. Schexnayder. — Robert F. Borg; 10(2), 141-2 (2005).
Closure to "Rebuilding the World Trade Center" by Robert F. Borg, John Gambatese, Kenneth Haines Jr., Chris Hendrickson, Jimmie Hinze, Arpad Horvath, Enno Koehn, Scott L. Moritz, Marvin Mass, and Robert A. Haughney. — Robert F. Borg; 10(3), 201 (2005).

Botansky, Yuval
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Cai, C. S.
Discussion on AASHTO LRFD Load Distribution Factors for Slab-on-Girder Bridges. — C. S. Cai; 10(3), 171-6 (2005).

Carbajal, Fabio
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).

Carter, Charles J.
Selecting the "Right" Fire Resistant Design. — Farid Alfawakhiri and Charles J. Carter; 10(1), 3-7 (2005).

Casadei, Paolo
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Chancey, Ryan
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).

de Melo e Silva, H. A.
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).

DeSantiago, Eduardo
Analysis of Horizontally Curved Bridges Using Simple Finite-Element Models. — Eduardo DeSantiago, Jamshid Mohammadi, and Hamadallah M. O. Albaijat; 10(1), 18-21 (2005).

Dicleli, M.
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).

Dione, S.
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Dmochowski, Jacek
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).

Dolan, J. Daniel
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daña J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).

Dowswell, Bo
Discussion of "Beam Web Strength under Pairs of Concentrated Compression Loads" by David Duerr. — Bo Dowswell; 10(1), 70 (2005).
Shear Lag in Rectangular Hollow Structural Sections Tension Members: Comparison of Design Equations to Test Data. — Bo Dowswell and Stacey Barber; 10(3), 195-9 (T) (2005).

Duerr, David
Closure to "Beam Web Strength under Pairs of Concentrated Compression Loads" by David Duerr. — David Duerr; 10(1), 70 (2005).

Dzekic, Sasa
Unbalanced Snow Loading and the Structural Integrity of Circular Arched Roofs. — Ralph E. Southward and Sasa Dzekic; 10(4), 209-16 (2005).

Elhouar, Souhail
Electronically Enhanced Traditional Structural Steel Beam Design Using Electronic Design Charts. — Souhail Elhouar; 10(4), 222-8 (2005).

ElSafty, Adel
Partial Continuity in Bridge Girders with Jointless Decks. — Ayman M. Okeil and Adel ElSafty; 10(4), 229-38 (2005).

García Ruesta, Jessica Carolina
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Guerra, F.
Optimum Layout of Buildings Subjected to Geometric Constraints. — F. Guerra; 10(4), 239-45 (2005).

Gupta, Rakesh
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daña J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).

Hegab, Mohamed Y.
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).

Heinze, Tom
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Hettiaratchi, J. P. A.
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Hinze, Jimmie
Practices that Influence Safety Performance on Power Plant Outages. — Jimmie Hinze; 10(3), 190-4 (2005).

Hu, Yuming
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).

Iwankiw, Nestor R.
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).

Jayasena, W. M. V. P. K.
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).

Jayasinghe, M. T. R.
Effect of Relative Humidity on Absolute and Differential Shortening of Columns and Walls in Multistory Reinforced Concrete Buildings. — M. T. R. Jayasinghe and W. M. V. P. K. Jayasena; 10(2), 88-97 (2005).

Kang, Jingfu
Techniques and Performance of Post-Prestressed Tunnel Liner. — Jingfu Kang and Yuming Hu; 10(2), 102-8 (2005).

Kilcollins, Danny
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Koehn, Enno
Discussion of "Rebuilding the World Trade Center" by Robert F. Borg, John Gambatese, Kenneth Haines Jr., Chris Hendrickson, Jimmie Hinze, Arpad Horvath, Enno Koehn, Scott L. Moritz, Marvin Mass, and Robert A. Haughney. — Enno Koehn; 10(3), 200 (2005).

Kuang, J. S.
Interaction-Based Design Formulas for Transfer Beams: Box Foundation Analogy. — J. S. Kuang and Shubin Li; 10(2), 127-32 (2005).

Lavy, Sarel
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Lebeda, Daňa J.
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daňa J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).

Leivo, Virpi
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Li, Shubin
Interaction-Based Design Formulas for Transfer Beams: Box Foundation Analogy. — J. S. Kuang and Shubin Li; 10(2), 127-32 (2005).

Longinow, Anatol
Editor' Note. — Anatol Longinow; 10(1), 1-2 (2005).
EDITOR'S NOTE. — Anatol Longinow; 10(2), 71-2 (2005).
Editor's Note. — Anatol Longinow; 10(3), 147-8 (2005).
Editor's Note. — Anatol Longinow; 10(4), 205-6 (2005).
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).

Mansour, M. Y.
Static Soil–Structure Interaction Effects in Seismic-Isolated Bridges. — M. Dicleli, S. Albhaisi, and M. Y. Mansour; 10(1), 22-33 (2005).

Marstellar, Bobbi
Certification? Inspection? What's the Difference and Why Should You Care? — Bobbi Marstellar; 10(3), 149-51 (2005).

Mclellan, Greg
Discussion of "Minimizing Construction Vibration Effects," by Mark R. Svinkin. — Greg Mclellan; 10(3), 201-2 (2005).

Minchin, Edward
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).

Mohammadi, Jamshid
Analysis of Horizontally Curved Bridges Using Simple Finite-Element Models. — Eduardo DeSantiago, Jamshid Mohammadi, and Hamadallah M. O. Albaijat; 10(1), 18-21 (2005).
Review of *Introduction to Optimum Design* by Jasbir Arora. — Jamshid Mohammadi; 10(4), 276 (B) (2005).

Mohan, Satish
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).

Monahan, Bernard
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).

Nanni, Antonio
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Nash, William R.
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).

Nassar, Khaled M.
Decision Support System for Commencement Delay Claims. — Mohamed Y. Hegab and Khaled M. Nassar; 10(3), 177-80 (2005).

Okeil, Ayman M.
Partial Continuity in Bridge Girders with Jointless Decks. — Ayman M. Okeil and Adel ElSafty; 10(4), 229-38 (2005).

Parretti, Renato
In Situ Load Testing of Parking Garage Reinforced Concrete Slabs: Comparison between 24 h and Cyclic Load Testing. — Paolo Casadei, Renato Parretti, Antonio Nanni, and Tom Heinze; 10(1), 40-8 (2005).

Rantala, Jukka
Typical Moisture Failures of Slab-on-Ground Structures in Finland. — Virpi Leivo and Jukka Rantala; 10(2), 98-101 (2005).

Raouf Al-Shawa, Abdul
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).

Reyes Salazar, J.
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Rosowsky, David V.
Effect of Hold-Down Misplacement on Strength and Stiffness of Wood Shear Walls. — Daňa J. Lebeda, Rakesh Gupta, David V. Rosowsky, and J. Daniel Dolan; 10(2), 79-87 (2005).

Ruiz, Gaby
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).

Ruwanpura, J. Y.
Assessing and Managing the Potential Environmental Risks of Construction Projects. — S. Dione, J. Y. Ruwanpura, and J. P. A. Hettiaratchi; 10(4), 260-6 (2005).

Salazar, J. Reyes
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Sarma, Kamal C.
Comparative Study of Optimum Designs of Steel High Rise Building Structures Using Allowable Stress Design and Load and Resistance Factor Design Codes. — Kamal C. Sarma and Hojjat Adeli; 10(1), 12-7 (2005).

Schexnayder, Cliff
Our History···Mega Projects West Coast···Conferences. — Cliff Schexnayder; 10(1), 8-11 (2005).
Our History ··· Mega Projects West Coast ··· Conferences ···. — Cliff Schexnayder; 10(2), 76-8 (2005).
Comments on Steel Construction···Equipment Management···Conferences···. — Cliff Schexnayder; 10(3), 152-3 (2005).
Comments on Using Dimensional Limestone···Books···Conferences···. — Cliff Schexnayder; 10(4), 217-21 (2005).

Schexnayder, Cliff J.
Quincha Construction in Perú. — Fabio Carbajal, Gaby Ruiz, and Cliff J. Schexnayder; 10(1), 56-62 (2005).
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).
Closure to "Competitive Bid versus Negotiated Bid in Commercial Construction Industry—One

Contractor's Perspective" by Steve Zelasko and Cliff J. Schexnayder. — Cliff J. Schexnayder; 10(2), 142-3 (2005).
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).
Constructing a Physical Model of the Piura River. — Jessica Carolina García Ruesta, J. Reyes Salazar, and Cliff J. Schexnayder; 10(4), 253-9 (2005).

Shapira, Aviad
Challenges of Stadium Construction—Case Study. — Sarel Lavy, Aviad Shapira, Yuval Botansky, and Cliff J. Schexnayder; 10(3), 181-9 (2005).

Sivakumar, K.
Discussion of "Rebuilding the World Trade Center" by Robert F. Borg. John Gambatese, Kenneth Haines Jr., Chris Hendrickson, Arpad Horvath, Enno Koehn, Scott L. Moritz, Marvin Mass, and Robert A. Haugheny. — K. Sivakumar; 10(3), 200-1 (2005).

Sivakumar, M.
Time-Dependent Behavior of Continuous Composite Integral Abutment Bridges. — M. Arockiasamy and M. Sivakumar; 10(3), 161-70 (2005).

Sophianopoulos, D. S.
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).

Southward, Ralph E.
Unbalanced Snow Loading and the Structural Integrity of Circular Arched Roofs. — Ralph E. Southward and Sasa Dzekic; 10(4), 209-16 (2005).

Springfield, John
Joint Details in Post and Beam Framing. — John Springfield; 10(2), 73-5 (2005).
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).

Sputo, Thomas
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).

Svinkin, Mark R.
Closure to "Minimizing Construction Vibration Effects," by Mark R. Svinkin. — Mark R. Svinkin; 10(3), 202-4 (2005).

Syrmakezis, C. A.
Strength of Unreinforced Masonry Walls under Concentrated Compression Loads. — P. G. Asteris and C. A. Syrmakezis; 10(2), 133-40 (2005).

Tabsh, Sami W.
Effect of Spread Footing Flexibility on Structural Response. — Sami W. Tabsh and Abdul Raouf Al-Shawa; 10(2), 109-14 (2005).

Townsend, Tanya
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Turner, Jennifer
Justifiable Precision and Accuracy in Structural Engineering Calculations: In Search of a Little Less Precision and Supposed Accuracy. — Ryan Chancey, Thomas Sputo, Edward Minchin, and Jennifer Turner; 10(3), 154-60 (2005).

Tzamtzis, A. D.
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).

van de Lindt, J. W.
Uniform Serviceability Load Limits for Mechanical Flange Connectors. — J. W. van de Lindt and H. A. de Melo e Silva; 10(1), 34-9 (2005).

Vegas Merino, Sara R.
Use of Rock Blocks to Protect the Downstream Zone of a Hydraulic Discharge Structure. — Sara R. Vegas Merino, J. Reyes Salazar, and Cliff J. Schexnayder; 10(1), 63-9 (2005).

Vouthouni, P. P.
Earthquake Resistant Design and Rehabilitation of Masonry Historical Structures. — P. G. Asteris, A. D. Tzamtzis, P. P. Vouthouni, and D. S. Sophianopoulos; 10(1), 49-55 (2005).

Williamson, Thomas G.
Tenth Anniversary of the ASCE *Practice Periodical on Structural Design and Construction*. — Nestor R. Iwankiw, Anatol Longinow, Bernard Monahan, William R. Nash, Cliff J. Schexnayder, John Springfield, and Thomas G. Williamson; 10(4), 207-8 (2005).

Yazdani, Nur
Hurricane Wind Shelter Retrofit Room Guidelines for Existing Houses. — Nur Yazdani, Tanya Townsend, and Danny Kilcollins; 10(4), 246-52 (2005).

Zech, Wesley C.
Evaluation of Rumble Strips and Police Presence as Speed Control Measures in Highway Work Zones. — Wesley C. Zech, Satish Mohan, and Jacek Dmochowski; 10(4), 267-75 (2005).
